# Demolition Permit Procedures

Demolition Permit application must be completed, signed and the fees paid, prior to any demolition work proceeding.

## REQUIRED INSPECTONS

### 1. Pre-Demolition Inspection

- A. Before demolition starts, an inspection of the structure must be scheduled and conducted by the City Building Official or other approved Inspector.
- B. This inspection is to verify that all hazardous materials and other environmental materials have been removed from the structure as per MPCA guidelines.
- C. Verification that Gopher State One-Call was contacted and that all the utility services have been located and marked.

### 2. Inspection Prior to Backfilling

After the entire structure has been removed, it must be inspected by the City Building Official prior to backfilling. This is to verify that all building materials (basement foundations including all footings) and debris have been completely removed from the excavation; must also verify that all the appropriate utilities have been disconnected and capped.

### 3. Final Inspection

After the site has been backfilled and the site is finish graded all work IS complete and all material is removed from the site.
